

International Association of Advanced Materials

January 18, 2024
Award Letter# IAAM15Y/01-2024

To,
Prof. Jinlian Hu,
City University of Hong Kong, Hong Kong

Subject: Award Letter for Advanced Materials Laureate to confer at the Fellow Summit 2024.

Dear Prof. Jinlian Hu

New Year Greetings!

On the occasion of 15th anniversary of International Association for Advanced Materials (IAAM), award and recognition committee has elected you as recipient of the 'Advanced Materials Laureate' (www.iaamonline.org/advanced-materials-laureate) in recognition of your outstanding contributions to the advanced materials science and technology. It is our pleasure to invite you to deliver your Advanced Materials Laureate Lecture at the Fellow Summit. The IAAM Fellow Summit aims to enhance and broaden the understanding of materials science, engineering, and technology, promote innovation, and drive technological advancements towards a sustainable and greener world.

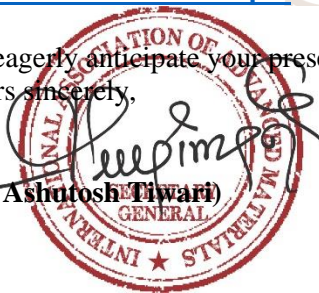

We request you to submit your abstract online to any of the above scheduled 'Fellow Summit 2024' at <https://www.advancedmaterialscongress.org/fellow-summit/portal.php> The summit will be organized in a hybrid format, providing options for both onsite and online participation. The citation for the 'Advanced Materials Laureate' will be presented to you after you deliver your laureate lecture at the fellow summit. The Fellow Summit 2024 will convene at the following venues:

- **American Fellow Summit:** 26th February - 01st March 2024, Miami, USA
- **Baltic Fellow Summit:** 25th - 27th March 2024, Stockholm, Sweden
- **European Fellow Summit:** 26th - 28th August 2024, Stockholm, Sweden
- **Global Fellow Summit:** 29th - 31st October 2024, Stockholm, Sweden

Please be aware that the IAAM, a non-profit scientific research entity with over 2000 honored distinguished recipients from over 75 nations, does not offer financial support for expenses such as registration, travel, visas, lodging, or transportation related to participation. Attendees must cover these costs via their individual research project or conference budgets. The IAAM's mission is to enhance global excellence by promoting in-depth dialogues, partnerships, and knowledge sharing in the advanced materials field. **The 15th Annual Book of IAAM can be found at <https://www.iaamonline.org/pdf/IAAM-Annual-Book-2024-Celebrating-15th-Years-of-Establishment.pdf>**

We eagerly anticipate your presence at the Fellow Summit.
Yours sincerely,

(Dr. Ashutosh Tiwari)
