Keywords: extreme response styles, logistic regression, likert scale, differential item functioning, mild response style

A corrigendum on

Modified Logistic Regression Approaches to Eliminating the Impact of Response Styles on Differential Item Functioning Detection in Likert-Type Scale

There is an error in the Funding statement. The correct number for (the Research Grants Council of the Hong Kong Special Administrative Region, China) is (CityU 21615416). The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way.

The original article has been updated.

Conflict of Interest Statement: The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.
