## CityU Scholars

### Correction

#### Hollow Au nanorattles for boosting the performance of organic photovoltaics

Bao, Zhi Yong; Liu, Shenghua; Hou, Yidong; Shang, Aixue; Yan, Feng; Wu, Yucheng; Lei, Danguan; Dai, Jiyan

#### Published in:

Journal of Materials Chemistry A

Published: 14/05/2021

#### Document Version:

Final Published version, also known as Publisher's PDF, Publisher's Final version or Version of Record

#### License:

#### Publication details:

Bao, Z. Y., Liu, S., Hou, Y., Shang, A., Yan, F., Wu, Y., Lei, D., & Dai, J. (2021). Correction: Hollow Au nanorattles for boosting the performance of organic photovoltaics. *Journal of Materials Chemistry A*, 9(18), 11456. <https://doi.org/10.1039/d1ta90089g>

#### Citing this paper

Please note that where the full-text provided on CityU Scholars is the Post-print version (also known as Accepted Author Manuscript, Peer-reviewed or Author Final version), it may differ from the Final Published version. When citing, ensure that you check and use the publisher's definitive version for pagination and other details.

#### General rights

Copyright for the publications made accessible via the CityU Scholars portal is retained by the author(s) and/or other copyright owners and it is a condition of accessing these publications that users recognise and abide by the legal requirements associated with these rights. Users may not further distribute the material or use it for any profit-making activity or commercial gain.

#### Publisher permission

Permission for previously published items are in accordance with publisher's copyright policies sourced from the SHERPA RoMEO database. Links to full text versions (either Published or Post-print) are only available if corresponding publishers allow open access.

#### Take down policy

Contact [lbscholars@cityu.edu.hk](mailto:lbscholars@cityu.edu.hk) if you believe that this document breaches copyright and provide us with details. We will remove access to the work immediately and investigate your claim.

The authors regret that a project funder was omitted from the Acknowledgements section in the published article. The corrected Acknowledgements section should read as follows.

This work was financially supported by the National Natural Science Foundation of China (Grant No. 51802066), the Fundamental Research Funds for the Central Universities of China (Grant No. JZ2019YYPY0023), the Research Grants Council (RGC) of Hong Kong, China (project number: C4030-14G), and the National College Students Innovation and Entrepreneurship Training Program (201910359095). Prof. Y. Wu acknowledges the financial support from the 111 Project "New Materials and Technology for Clean Energy" (B18018). We thank Dr Y. Zhu for performing parts of TEM measurement.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
