The authors regret that Eq. (6) should be corrected as:

$$K_{T,0} = 8a \left(\frac{2 - \nu_1}{G_1} + \frac{2 - \nu_2}{G_2} \right)^{-1} \quad (6)$$

The authors confirm that the analysis performed using Eq. (6) is correct and the correction refers to a typo appeared on the right side of this expression.

The authors would like to apologise for any inconvenience caused.
